RESIDENT ENGINEER AND CLERK OF WORKS

IBI Group, an international multi-disciplinary consulting firm, is actively seeking one engineer and three technicians to serve as Resident Engineer and Clerks of Works for several construction projects in proximity of the Georgetown area. The construction projects will provide full time contract employment for one engineer and three technicians for up to two years. Qualified applicants will be able to demonstrate an established career in levees/river defense, and bridge and road construction projects. The successful candidates will conduct daily construction contract administration, inspections to supervise contract adherence and conformance with design drawings and specifications. More detailed job description information is available upon request at [**pspal@ibigroup.com**](mailto:pspal@ibigroup.com).
